The Simplest and Quickest Way Is To Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to maisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all Itching

and digging of the scalp will stop at once, and your hair will be fluffy, inctrous, glossy, silky and soft, and look and feel a hundred times better.
